DETAILED ACTION

EXAMINER'S AMENDMENT

1. The application has been amended as follows:

Regarding claim(s) 22, line 1:

"22" following "claim" has been replaced by -- 21 --.

Allowable Subject Matter

- 2. Claim(s) 1-25 are allowed.
- 3. The following is an examiner's statement of reasons for allowance:

Regarding claim(s) 1, 8, 15 and 21, the prior art of record Lennig discloses a telecommunications system automatic directory assistance that uses a voice-processing unit. Lennig differs from the invention by failing to disclose or suggest determining whether a particular user utterance for directory assistance, satisfying an error condition, is a generic utterance or a non-generic utterance, if the user utterance is non-generic, plays the utterance to the operator. It is not obvious to modify Lennig to add the determining and the playing steps of the invention because Lennig invention plays all the recorded utterances of the caller to the operator for clarification.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably Application/Control Number: 10/777,877
